Rough on Cecil.

JOE Norvell, who brought suit for \$5,000 damages against Hon. J. G. Cecil, Register of the Land Office, and had it dismissed before trial, publishes a card containing the following, after referring to Cecil's promise of clerkships to himself and Sheldon in consideration of votes given him at the nominating Convention:

"What motives moved him to his perfidy, whether the bare salaries of the clerkships, or secret interests in vacant lands, fictitious and defective patents being speculated in to the detriment of the people and confusion of the titles to their homes by certain 'land-grabbers,' whose tool he is, and in whose interest he has degraded himself, I leave the public to draw their own inference. All I have to say to the people of Northern and Eastern Kentucky is, 'Look out for your titles.' He not only denied the agreement, but he undertook to make the people of the State believe that Captain Sheldon and myself were trying to blackmail him into appointing us to the clerkships named. I feel that a generous public, careful of the reputation of citizens, will say I have done right in bringing before them the evidence in legal form."

"If Kentucky can bear him, and he can carry the load of his conscience, while I pity the two, I shall rejoice that I am free from service and association with such a being."
